

INSTRUCTIONS FOR ONLINE STUDENT HEALTH PORTAL

Seton Hall Health Services uses an Electronic Health Records management system called Mediat. This system helps us to provide efficient and high-quality healthcare. The Student Health Portal is the student's secure entry point to the system and his or her individual health record.

To Log-in to the Online Student Health Portal:

- Go to: <https://shu.medicatconnect.com/>
- Log-in to the portal with your "PirateNet" user name and password

New Students:

- Please complete under Forms:
 - Medical History and
 - TB Risk Assessment (Refer to **Countries with High Incidence** list)
 - The Meningitis Information Form (if 21 or under)
- Click on "Immunization" tab to enter required vaccine dates.
- **Immunizations will be verified by Health Services staff after the hard copy is received.** You may upload your immunization documentation from your health care provider into the portal by clicking "upload documents" on the home page. You may also fax, mail or drop off this information at health services.

Continuing Students:

- Complete Medical History and TB Risk Assessment
- Enter any recent vaccines
- Immunization data previously submitted will be entered by Health Services staff

If you do not know your username or have technical issues with the portal, please contact **Information Technology (973) 275-2222**

If you have questions about health history or vaccine data, please contact **Health Services (973) 761-9175**
