

TREATMENT RESOURCES FOR OPIOID USE DISORDER

PRACTITIONER RESOURCES

SAMHSA resources help practitioners be better prepared to identify a need for, and connect patients to, appropriate opioid use disorder treatment.

Screening, Brief Intervention, and Referral to Treatment (SBIRT)

An approach to early intervention and treatment to people with substance use disorders and those at risk of developing these disorders. samhsa.gov/sbirt

SAMHSA has also produced a Technical Assistance Publication on SBIRT which includes more detail about developing processes to refer people to substance use disorder treatment: store.samhsa.gov/product/TAP-33-Systems-Level-Implementation-of-Screening-Brief-Intervention-and-Referral-to-Treatment-SBIRT-/SMA13-4741. Additional information about SBIRT can be found at the SAMHSA/HRSA Center for Integrated Health Solutions: integration.samhsa.gov/clinical-practice/SBIRT

Medication-Assisted Treatment Courses

SAMHSA provides continuing medical education (CME) courses on prescribing opioids for chronic pain and MAT. Most of the courses also include resources that address practice management, legal and regulatory issues, opioid pharmacology,

and strategies for managing challenging patient situations. Learn more at: samhsa.gov/medication-assisted-treatment/training-resources/opioid-courses

Providers' Clinical Support System (PCSS)

PCSS is a national training and mentoring project developed in response to the national increase in opioid use disorders. This includes a number of resources that physicians can use to get Continuing Medical Education/Continuing Education related to proper opioid prescribing and providing MAT. Learn more at: pcss-o.org for effective use of opioids for treatment of chronic pain and safe and effective treatment of opioid use disorder, and pcssmat.org for MAT.

Pocket Guide

Offers guidelines for physicians using MAT for patients with opioid use disorder. Discusses the various types of approved medications, screening and assessment tools, and best practices for patient care. Download your copy today: bit.ly/MATforOpioids

MATx Mobile App

MATx empowers health care practitioners to provide effective, evidence-based care for opioid use disorders. MATx includes a step-by-step guide for practitioners to become certified to prescribe buprenorphine, information on medications for opioid use disorders, including buprenorphine, methadone, naltrexone, and naloxone for opioid overdose prevention, clinical support tools, such as treatment guidelines, and ICD-10 coding, and access to critical helplines and SAMHSA's treatment locators.
