Alex Kunath, *SVP of IT, Genting Americas, Inc.*

 Alex Kunath serves as Senior Vice President of Information Technology for Genting Americas, where he leads the overall IT function, including enterprise IT strategy, infrastructure, security, and operational technology across multiple integrated resort and gaming properties. With nearly 15 years of experience in the gaming industry, he oversees the design, scalability, and performance of mission-critical systems that support gaming operations, hospitality platforms, and corporate environments. Alex is currently leading the technology transformation of Resorts World New York City as it prepares for its transition from a VLT facility to a full-scale commercial casino. His work focuses on modernizing core infrastructure, strengthening security, and expanding technology capabilities to support future growth. He brings extensive experience in large-scale technology deployments and enterprise IT operations, with a focus on building and managing secure, scalable platforms that power modern gaming enterprises.
