

**Nitin Pandey**, *Cybersecurity | Data Governance Executive*

A seasoned risk and cybersecurity leader with over 23 years of experience in helping organizations develop and implement state-of-the-art cyber and data risk programs. I specialize in risk management across a range of disciplines related to technology, cyber, data privacy, and most recently, artificial intelligence (AI) and help organizations define and manage to their risk appetite and align their technology, cyber, and privacy investments. Served as interim Chief Information Security Officer (CISO) for a large US financial institution. Deeply involved in developing and sustaining the Data Privacy function and programs at 3 of the top 5 financial institutions in the United States. Implemented end-to-end programs based on NIST Cybersecurity Framework (CSF), New York DFS Cybersecurity Regulation, General Data Protection Regulation (GDPR), and California Consumer Privacy Act (CCPA). Have helped 30+ organizations in building and enhancing their data privacy programs, navigating through challenges related to legal and regulatory compliance, information security program governance and reporting to the Board, third party risk management program design, data classification program design and implementation, risk assessment process execution, and supporting program remediation. Qualifications include a Certified Information Systems Security Professional (CISSP), Certified Information Privacy Professional (CIPP), Project Management Professional (PMP), and an MBA with a dual specialization in Strategy and Finance from a top 15 global institution.
