

Aline Lautenberg

General Counsel and Director General

MedTech Europe

Aline is MedTech Europe's General Counsel and Legal & Compliance Director. As such, she is advising on MedTech Europe's contractual, regulatory and statutory obligations. She is also assisting the Chief Executive and the Board of Directors. Moreover, Aline leads the association's working groups on legal matters, including data protection and compliance.

The Legal & Compliance team's goal is to provide a clear framework assessing the appropriateness and legality of any and all matters affecting both the association as well as the medical technology industry more broadly.

Aline has more than 15 year experience in the MedTech industry. She's a graduate of the university of Louvain-la-Neuve (Belgium) and speaks fluently French, English and German. Outside of work she is desperately trying to learn Greek.
