

Hepatitis C Elimination Symposium
April 4, 2025

Corey Rosmarin-DeStefano

Director of Research

North Jersey Community Research Initiative (NJCRI)

Corey Rosmarin-DeStefano currently serves as the Director of Research at the North Jersey Community Research Initiative (NJCRI). With over 25 years of experience in clinical research and program management, she oversees a wide range of research studies funded by prominent organizations such as the National Institutes of Health (NIH), Centers for Disease Control and Prevention (CDC), and various pharmaceutical companies.

Corey is dedicated to improving the health and wellbeing of vulnerable populations, particularly those at risk for Infectious Diseases and other health disparities. Under her leadership, NJCRI has developed and implemented groundbreaking programs focused on prevention, care, and treatment, with a specific focus on adult, young adult, and adolescent substance users, the homeless, and other vulnerable communities.

The programs at NJCRI are known for their comprehensive approach to recruitment, outreach, infectious disease testing, and connecting individuals to essential healthcare services, while also ensuring retention in care. Corey's research interests also extend to STI/HIV/Hepatitis C care, treatment, screening and behavioral surveillance research.

A skilled leader and expert in clinical systems, care, and prevention, Corey has worked extensively to design and implement interventions that integrate both clinical and behavioral health components. She provides guidance on policies, procedures, and strategies for reaching hard-to-reach populations and offering primary care and prevention services to those most in need.

Corey has her bachelor's degree in social and behavioral sciences, speech and hearing Sciences and is currently pursuing a Master of Public Health (MPH) at the University of North Carolina, Chapel Hill, where she continues to refine her expertise in public health to support her work in research, health outcomes, and community service.
