## **Karina Griese-Brake**

*Head of Compliance Middle East, Turkey & Africa*  
Fresenius Medical Care Middle East (Dubai)

Karina Griese-Brake has worked as a lawyer and compliance officer for three multinational health care companies in Dubai since 2011 (Siemens Healthcare, Medtronic, and Fresenius Medical Care). She has studied various compliance concepts, business models, and ways of mitigating risks for the Middle East and Africa regions. She loves conducting compliance training and constantly wants to modernize the compliance strategies and policies. She gained her broad experience from having worked for companies at HQs and at their regional affiliates, thus enhancing both sides' understanding of each other when it comes to master the challenges in the ever-changing areas of law, ethics, and compliance.

Before coming to Dubai, Ms. Griese-Brake worked as an IP and commercial in-house lawyer with Audi, Porsche, and Siemens Healthcare in Germany for eleven years.
