Ronald Goon

Senior Healthcare Compliance Leader

Ronald Goon is a senior healthcare compliance leader with nearly 40 years of experience in the pharmaceutical, medical device, and life sciences sectors across Asia-Pacific, Greater China, Europe, and the United States.

He previously held senior leadership roles at Sanofi and Johnson & Johnson, where he built and led large-scale ethics, compliance, quality, and regulatory programs across more than 20 jurisdictions. In over two decades with Johnson & Johnson, he served in senior regional roles spanning Business Practices & Compliance and Quality & Regulatory Compliance. He implemented comprehensive anti-corruption and healthcare compliance programs, led third-party due diligence across thousands of intermediaries, supported major global acquisitions, and worked closely with regulatory authorities worldwide. Earlier in his career, he managed global GxP audits, regulatory inspections, and quality systems across pharmaceutical, medical device, and consumer healthcare operations.

As Ethics & Business Integrity Head for Greater China at Sanofi, he oversaw compliance across multiple business units, R&D operations, and commercial organizations, strengthening third-party governance, advancing data privacy frameworks, and introducing AI-enabled monitoring to enhance risk detection and oversight.

He is an active contributor to healthcare compliance education and industry forums, with deep expertise in ABAC, regulatory compliance, data governance, and risk management in highly regulated healthcare environments.
