

Mathilde Cerioli

*Chief Scientist,
Everyone.AI*

Mathilde Cerioli holds a Ph.D. in Cognitive Neuroscience and a Master's Degree in Psychology, with a strong focus on child development. Her research focuses on the intersection of AI and child cognitive and socio-emotional development. She is the Chief Scientific Officer at everyone.AI, a nonprofit focused on educating about the opportunities and risks of AI for children. Within everyone.ai and in partnership with the Paris Peace Forum, she contributed to the launch of the Beneficial AI for Children Coalition, a multistakeholder initiative that aims to orient the development, deployment and adoption of beneficial AI for children and adolescents, working with 11 governments, tech companies, such as Google, OpenAI and Anthropic, and large organizations and NGOs, such as UNICEF, UNESCO or Common Sense Media.
